### UHC Leaves No One Behind:

### *working together towards good health & well-being for all*

The High-level Meeting (HLM) on UHC in 2019 represents a key milestone to foster political commitment & drive action, building on HLMs on Ending AIDS, AMR, TB & NCDs. We must achieve UHC to promote physical & mental health & well-being for all by 2030. To achieve this goal, at least 1 billion more people will need to have access to essential health services in each five-year period between 2015 & 2030.

This multi-stakeholder dialogue will cover the following topics to prepare UHC Political Declaration in 2019:

- Options for collaboration, alignment & harmonisation across SDG3+ goals & targets
- Health investments for increased equity, access & security
- Building momentum to increase delivery of a package of essential health services
