

A WHO-GMP certified company in Qatar

Quality Products Proudly

Our Vision:

- At Q-life, we are inspired by the vision of providing Quality of Life; to our community, region and to the world we live in, by dedicating our resources to innovation, research and development.
- We are getting closer everyday in making the world healthier and safer.

Creating...The Perfect Blend For Success

Our Mission

Ensure high quality through the state of art technology, which develops and commercialize best quality products at affordable price that meet customer expectations.

**QLife Pharma is inspired by
“QATAR NATIONAL VISION 2030”**

Chairman's Message:

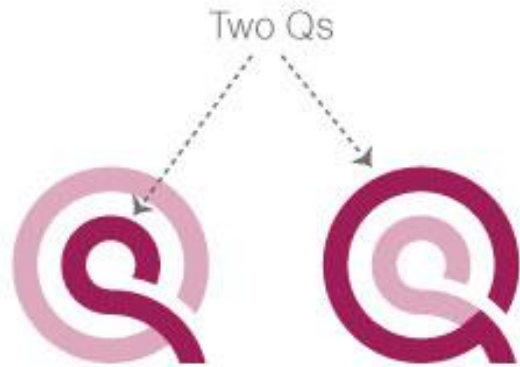

- I am pleased and honored to officially announce the launch of a local pharmaceutical company to provide an industrial model in line with the policy and vision of our beloved country, Qatar 2030
- We are proud to introduce Qatar Life to join the Arab pharmaceutical industry and to be a new sponsor of the local and Arab pharmaceutical market, adopting the general quality methodology in all its manufacturing, management and marketing processes, and reflecting on the commitment to provide quality and quality products.
- To serve and improve patient health by delivering high quality pharmaceuticals which are locally made in Qatar. Our aim is to manufacture all the required pharmaceuticals within the state of Qatar.
- Our strategy is designed to help and solve some of the most pressing challenges facing mankind, and by doing this exceptionally well we aim to strengthen the company's earning power. We focus on finding new medications and that help better lives and live long healthy and evolve the practice of medicine.
- We are having strong a management team that is accountable for effective review and support of quality, through innovation, resourcing and timely execution.

Chairman Message

Dr. Ahmed Hamad Al Mohanadi
CEO – QLife Pharma

A logo that reminds us of what we are passionate about!

Inner Q (Internal Quality)

At QLife, Quality is at the heart of what we do on daily basis. Inner Q letter represents the Internal quality measures that take place at all levels inside QLife Pharma.

Outer Q (Quality of Life)

Symbolize QLife commitment to the Quality of Life in the society and the world it operates in.

Both Qs are connected together to symbolize that improving Quality of Life can not be achieved without strong internal quality measures.

Company Overview

- QLife Pharma is a leading manufacturer of pharmaceuticals and consumer health products in Qatar founded by Dr. Ahmed Hamad Al Mohanadi (CEO of QLife Pharma), committed to manufacturing high quality medicines that meet patient's needs.
- We aim to protect, enable and support people facing health challenges, across the globe at every stage of life.

Company Overview

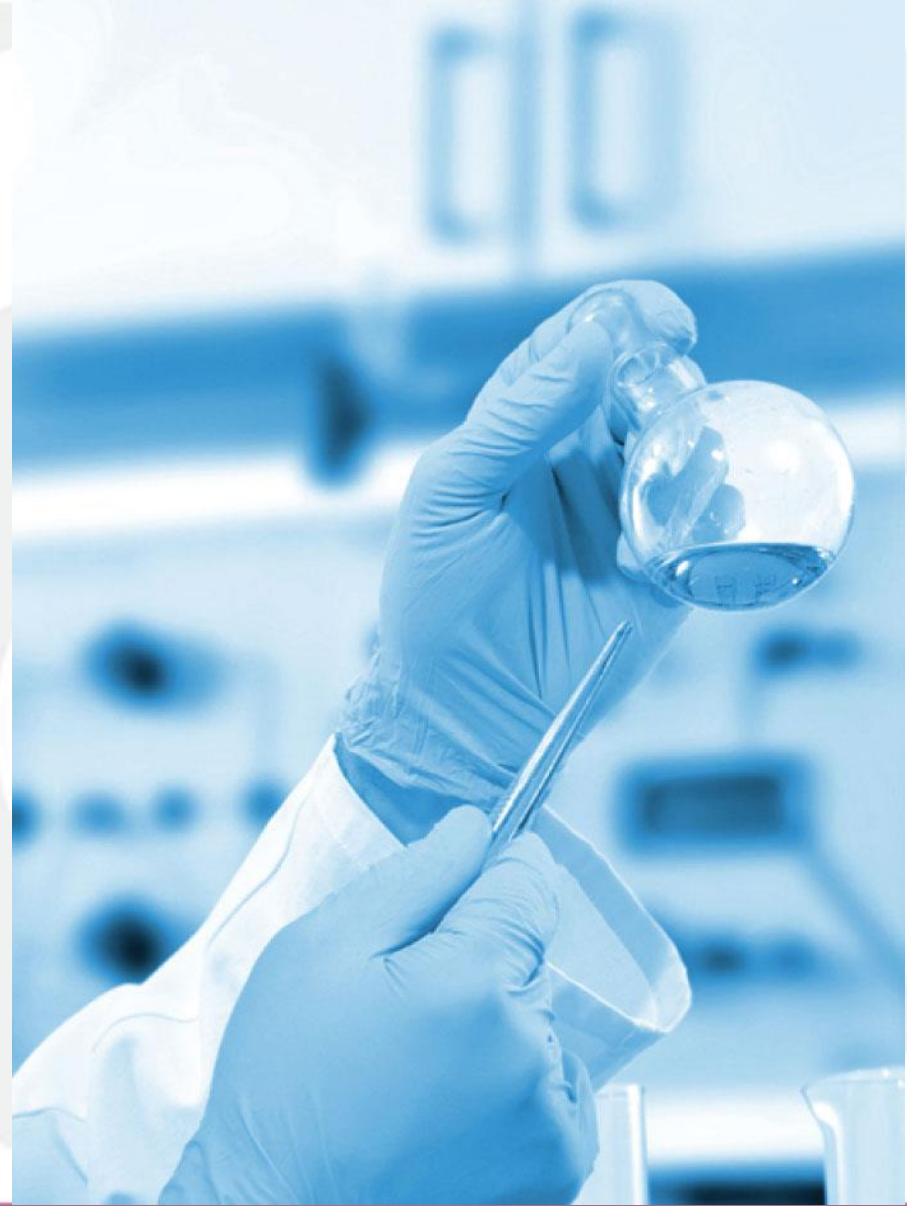

Q-Life is a pioneer pharmaceutical company in Qatar

We manufacture:
