

**The United Nations Secretary-General,
the United Kingdom, South Africa and
the World Health Organisation**

invite you to a virtual high-level side event on the Access to COVID-19 Tools Accelerator (ACT-A),
that will showcase the COVAX Global Vaccines Facility,
in the margins of the 75th session of the UN General Assembly:

‘Accelerating the end of the COVID-19 pandemic:
taking new solutions to scale and making them equitably accessible,
to save lives, protect health systems and restart the global economy’

**Wednesday, 30 September 2020
08:30-10:00am EST**

The event will mark the progress that has been made in global collaboration to develop and ensure equitable access to new COVID-19 diagnostics, therapeutics and vaccines through the Access to COVID-19 Tools Accelerator (ACT-A) and particularly its COVAX Global Vaccines Facility. This event will further galvanise commitments to multilateral approaches to fully realise the potential of ACT-A and its mechanisms such as the COVAX Vaccines Facility to bring COVID-19 tools to scale and to all countries and to accelerate the end of the pandemic.
