

WHO PROGRAMME BUDGET 2018-201
HEALTH OUTCOME STATEMENTS

CATEGORY AND PROGRAMME AREA	OUTCOME STATEMENT
Category 1 COMMUNICABLE DISEASES	
Programme1.1.HIV and Hepatitis	Outcome 1.1. Increased access to key interventions for people living with HIV and viral hepatitis
Programme1.2.Tuberculosis	Outcome 1.2. Universal access to quality tuberculosis care in line with the End TB Strategy
Programme1.3.Malaria	Outcome 1.3. Increased access of populations at risk to preventive interventions, diagnostic confirmation of malaria and first-line antimalarial treatment
Programme1.4.Neglected tropical diseases	Outcome 1.4. Increased and sustained access to neglected tropical disease control interventions
Programme1.5.Vaccine-preventable diseases	Outcome 1.5. Increased vaccination coverage for hard-to-reach populations and communities
Programme1.6.Antimicrobial resistance	Outcome 1.6. All countries have essential capacity to respond to antimicrobial resistance
Category 2 NONCOMMUNICABLE DISEASES	
Programme2.1.Noncommunicable diseases	Outcome 2.1. Increased access to interventions to prevent and manage noncommunicable diseases and their risk factors
Programme2.2.Mental health and substance abuse	Outcome 2.2. Increased access to services for mental health and substance use disorders
Programme2.3.Violence and injuries	Outcome 2.3. Reduced risk factors and improved coverage with interventions to prevent and manage unintentional injuries and violence
Programme2.4.Disabilities and rehabilitation	Outcome 2.4. Increased access to comprehensive eye care, hearing care and rehabilitation services
Programme2.5.Nutrition	Outcome 2.5. Reduced nutritional risk for improved health and well-being
Programme2.6.Food safety	Outcome 2.6. All countries are adequately prepared to prevent and mitigate risks to food safety
Category 3 PROMOTING HEALTH THROUGH THE LIFE COURSE	
Programme3.1.Reproductive, maternal, newborn, child and adolescent health	Outcome 3.1. Increased access to interventions for improving health of women, newborns, children and adolescents
Programme3.2.Ageing and health	Outcome 3.2. Increased proportion of people who are able to live a long and healthy life
Programme3.5.Health and the environment	Outcome 3.5. Reduced environmental threats to health
Programme3.6.3.6 Equity, social determinants, gender equality and human rights	Outcome 3.6 Improved capacities in WHO, the health sector and across all government departments and agencies (whole-of-government) for addressing social determinants, gender inequalities and human rights in health, and producing equitable outcomes across the Sustainable Development Goals
Category 4 HEALTH SYSTEMS	
Programme4.1.National health policies, strategies and plans	Outcome 4.1. All countries have comprehensive national health policies, strategies and plans aimed at moving towards universal health coverage
Programme4.2.Integrated people-centred health services	Outcome 4.2. Policies, financing and human resources in place to increase access to integrated, people centred health services
Programme4.3.Access to medicines and other health technologies and strengthening regulatory capacity	Outcome 4.3. Improved access to and rational use of safe, efficacious and affordable quality medicines and other health technologies
Programme4.4.Health systems, information and evidence	Outcome 4.4. All countries having well-functioning health information, eHealth, research, ethics and knowledge management systems to support national health priorities
Category E HEALTH EMERGENCIES PROGRAMME	
ProgrammeE.1Infectious Hazard Management	Outcome 12.1. All countries are equipped to mitigate risks from high-threat infectious hazards
ProgrammeE.2Country Health Emergency Preparedness and the International Health Regulations (2005)	Outcome 12.2. All countries assess and address critical gaps in preparedness for health emergencies, including in core capacities under the International Health Regulations (2005) and in capacities for all-hazard health emergency risk management.
ProgrammeE.3Health Emergency information and risk assessment	Outcome 12.3. Health events are detected and risks are assessed and communicated for appropriate action
ProgrammeE.4Emergency Operations	Outcome 12.4. - Populations affected by health emergencies have access to essential life-saving health services and public health interventions
ProgrammeE.5Emergency Core Services	Outcome 12.5. National emergency programmes supported by a well-resourced and efficient WHO Health Emergencies Programme
