Subject: In continuation to our conversation today

Dear Mr. Kalandadze,

It was very nice to meet you today at the TBC Bank event.

As I told you today I am the CEO of the JBNF (Jerusalem Business Networking Forum)-BioMed organization.

We cover all Bio-companies and institutes that are active in Jerusalem and surroundings. As part of our activity to further promote Jerusalem's Bio-ecosystem we hold events where we bring delegations from all over the world to meet the local industry- technologies and products.

In that subject I would like to further discuss with you the option to bring Georgian delegations to meet Jerusalem's bio ecosystem where we can help by creating the optimal focus (i.e, products Vs technologies, BioMed Vs pharma etc.).

I cc-ed on this email Dr. Vitali Shilo, our VP of outreach and Mr. Joe Van-Zwaren our President. You can see our past and future activity through the meetup- JBNF-BioMed site.

<http://www.meetup.com/JBNF-BioMed/>

We are currently working on our new site and therefore it will be available shortly.

I would appreciate it if we could schedule a meeting and further elaborate on our activity and find the best ways to collaborate in order for us to bring Georgia's business to meet with Jerusalem's bio ecosystem.

Thank you,

Yaron
