

Cryptocurrencies & Blockchains

A New Boost For SDG-Financing?

SAVE THE DATE

28 September 2018 ~ 1:15–2:30 PM
CR7 – United Nations

Permanent Mission of Georgia
to the United Nations

Federal Ministry
for Economic Cooperation
and Development

The Leading Group on Innovative Financing for Development – represented by its President country (Georgia), its permanent Secretariat (France) and its member country (Germany) – invite you to discuss the main developments in the field of blockchain technologies and cryptocurrencies and participate in an open and inclusive debate on the credibility of their future use for financing sustainable development, with experts from governments, academics, the private sector and civil society.
