David: The Carter Center is requesting materials for the members of the International Task Force for Disease Eradication by Tuesday May 16.

In speaking with Francisco we suggest:

The MMWR report published in 2016

The National Strategic Plan for Hepatitis C Elimination

The Georgia Hepatitis C Profile distributed at EASL

The EASL abstract describing the results of the national serologic survey.

Please let us know if you agree with this collection or suggest additions or deletions.

Thanks for visiting Atlanta and the Carter Center. Please let us know your itinerary and we can arrange visits to CDC.

All the best.

Hello, Dr. Ward,

As I mentioned in my previously email (see below), we need to send the briefing book to the ITFDE members no later than Friday, May 19. I received the articles suggested by Dr. Hirnschall. Have you received articles from the other speakers? Do you have articles for your topic? Would it be possible to receive these articles from you and the other speakers by this Monday, May 15?

Please advise. Thanks. Have a blessed day.

John,

Please see Shandal's query. May 15th is 4 weeks from now.

Looking forward to your reply.

Hi, Dr. Blount,

Hope you are well. Thanks for your message. I would prefer to get the materials by May 15 in order to send out the book by May 19 giving the ITFDE members a month to review. If this is not possible, in order to send the book out by June 1, I would need the materials no later than May 26. I think the book should go out no later than June 1 in order to give the members sufficient time to review the materials.

Please advise if this is feasible. Thanks. Have a blessed day.

Shandal,

Hope you're ok.

I just spoke with John Ward about the meeting book for the June 20th meeting. We reviewed the table of contents of the book for the Nov 2016 meeting and I told him that we want to send out the one for the June meeting no later than Thursday, June 1st. Is that date ok or do we need to send it earlier?

Dear Task Force Members,

Hope you are well. As you know, the Task Force will discuss eliminating viral hepatitis on Tuesday, June 20 (agenda attached). **We would also like to nail down a date for Fall 2017 to discuss Guinea worm eradication.** Please let me know as soon as possible your availability for this Fall meeting on the following dates:

Oct. 17

Oct. 24

Please advise. Thanks. Have a blessed day.
