To: Ward, John (CDC/OID/NCHHSTP) <jww4@cdc.gov>; David Sergeenko <dsergeenko@moh.gov.ge>;

Thank you Minister!

Dear Dr. Ward,

Greetings! Hope all is well. We are planning Minister's visit by the end of May or beginning of June. Gilead has proposed 3 dates to held Art transfer reception and one of those dates is May 30-31. Minister will start his official visit here in Washington and then go to SF to attend an Art Transfer event. If the meeting of the International Task Force on Disease Eradication planned by Carter Center is in early June it could all work out perfectly.

I will share final confirmation on the dates with you later this week or early next week.

Warm regards, Tamar

Great. The dates in June for the Carter Center will be set in the next few weeks. I look forward hearing from Tamar. The Carter Center has asked for a draft agenda on March 2. For now I will schedule you as a tentative participant and speaker.

Thanks again.

Regards: John

Thank you John

Mrs. Tamar Chelidze from Embassy of Georgia in US is scheduling this visit and we will share with you dates soon.

David

David: Please let me know your dates for visiting the US in June. In that month, the Carter Center is planning a meeting of the International Task Force on Disease Eradication (<https://www.cartercenter.org/health/itfde/>) to review progress toward viral hepatitis elimination. This is a very impressive body of experts which published a set of

recommendations after each meeting. If you are in the country, your participation would be helpful to demonstrate the political commitment in Georgia leading to partnerships and health systems changes that make elimination possible. I hope you agree this is important. I look forward hearing from you.

John
