OBLIGATION TO BE APPLIED BY NEW CHEMICAL ACT_18_06_2018.docx;

Dear all,

please find attached the table of obligations connected with the new chemical legislation to be adopted in Georgia.

We would like to discuss these informations, as well as the potential related competences during our common meetings this week.

Would you please have a look at it, as well as at our questions highlighted previously in the document "Analysis"?:

<https://docs.google.com/spreadsheets/d/17yh2l4Qe6mqfcS84wd2aBkW4CrKpL6L6Q3CjFEiEEw0/edit#gid=1829155988>

If there is anything relevant that can be added about your institutions (especially in connection with current system of controls and penalties with regards to chemicals) or in the sheet ANALYSIS, you are welcome to add these information. (Please use different colours in order to find, what is new. Thank you.)

Thank you very much for your time and cooperation.

We are looking forward to meeting with you.

Best regards,

Ales Kulhanek

Re: CLP and REACH project - shared documents - Marina Latsabidze

in our shared document, in the sheets of particular institutions, we highlighted (in red) new questions that we would like to discuss with you.

Could you please help us find answers to these questions in advance or during our meetings between June 19 and 21 when we will be in Tbilisi?

If there is anything relevant that can be added about your institutions (especially in connection with current system of controls and penalties with regards to chemicals) or in the sheet ANALYSIS, you are welcome to add this information.

(Please use different colours in order to find, what is new. Thank you.)

Thank you very much for your time and cooperation.

Best regards,

Ales Kulhanek

P.S. Please find attached the English version of the Czech Law on Chemicals, which was uploaded to the shared folder:

Dne 09.05.2018 v 9:46 Aleš Kulháněk napsal(a):

Dear all,

I would like to thank to Nino Tchanturishvili (Customs Dep.) and the Ministry of Environmental Protection for presenting information about the relevant legislation and competences.

Mr. Jemal Kolashvili sent us also some brief information about the Emergency Management Agency.

May I ask the representatives of the Ministry of Health and Ministry of Economy to fill in information about their institutions **by May 18 the latest?**

All of you are welcomed to comment on the sheet "Analysis" which was prepared by Medistyl and Dekonta.

In case there are some laws or by-laws available in English, may I ask you to send them to our team?

This information will help us in preparing the new chemical legislation for Georgia.

Currently we are working on the translation of the Czech Chemical law into English and we will provide it to you.

Thank you very much for your cooperation and time.

Best regards,

Ales Kulhanek

Dne 24.04.2018 v 15:34 Aleš Kulhánek napsal(a):

Dear all,

please find the link to the shared documents concerning the CLP and REACH project:

<https://drive.google.com/drive/folders/1hZdXsqRj84YHbldKrwqL5gMwm1WkTOXK?usp=sharing>

You can find all the presentations from the Study Tour in a separate folder „presentations“. Schemes of the CLP and REACH obligation processes, REACH terminology in Georgian, as well as the Czech chemical law in English will be uploaded during the week.

There are also English versions of REACH and CLP regulations, REACH Testing Regulation (440_2008), the ECHA Guideline for Authorization of Hazardous Substances and the Georgian regulation No. 67 on occupational exposure limits. Tables No. XIV and XVII are part of the REACH regulation.

In the file „Analysis of existing legislation“ we would like to kindly ask you to correct, add and comment in the column „C“ (with the colour of the font you choose at your ministry or agency and at the same time, please fill in the name and e-mail, who has added the comments). We would also like to ask to you fill in (in the created separate sheets) competences of your ministries / agency and the legal acts that your Ministry has in its competence. If some of these legal acts exist in English, could you please share them with us?

Should you have any questions, do not hesitate to contact me, please.

Thank you very much for your cooperation and your time.

Best regards,

Ales Kulhanek

on behalf of the project team
