INCLUDE_PLENARY 1_Session brief_30_May 2018.docx;

Dear Minister,

Attached please find the session brief which provides an overview of what would be in the focus of discussion, incl. brief proposals for all three ministers. These are proposals and you are of course free to decide what you want to focus on.

Please, let me know, if the proposed summary covers the area that you plan to cover during your intervention, or let me know your additional key messages, so I can properly inform the moderator (Josep Figueras, Head of the European Observatory of Health systems).

Unfortunately it is a very tight session with only 15 minutes for the panel with three countries (GEO, GRE, SVN), so the interventions need to be short and without slides. In fact, Josep Figueras would like to make it interactive and lively.

If needed, Tamas Evetovits as well as Josep Figueras are available for a teleconference next week.

I copy Prof Amiran and Sopo, as they will accompany you to Tallinn.

Thank you once again for your readiness to contribute at this important event.

Best regards,

Marijan Ivanusa
WHO Representative
Head of WHO Country Office Georgia
