Preliminary Agenda - Analysis of Causes of Death.pdf;

Dear Sopo,

weeks ago I have alerted you about possible invitation for the training on causes of death.

This is organized and funded by other partners, so it was beyond our influence and unfortunately the invitation has been sent to the ministry very late.

We hope that it is still possible to do immediate nomination and secure visas for Georgian experts on time.

All costs will be covered by the organizers.

While WHO is not the organizers, we fully support participation at the training, in particular as this technical area is also one of the priorities of the BCA 2018-2019. In reality it was WHO that suggested the organizers to invite Georgia to attend.

I would appreciate if you would copy me when answering the organizers, so we can follow up from our side too, if needed.

Thank you.

Best regards,

Marijan Ivanusa
