Dear Dr. Jakab,

First of all, I would like to express my deepest respect to you and sincere appreciation for all efforts you do as a head of WHO regional office.

As you know, despite of numerous achievements, Georgia strives to further strengthen its Health System to be in line with the commitments taken under the Association Agreement. Georgian Healthcare System Concept for 2014-2020 establishes broad range of priorities, including strengthening of pharmaceutical regulations.

One of the challenges we are facing is a creation of GMP inspectorate with subsequent intention of joining PIC/S.

In order to succeed in this endeavor, we ask you and WHO to support us and provide the assistance of a consultant who will help us to develop appropriate detailed plan and implement the task correctly.

Taking into consideration existing strong political will and the urgency of the problem in terms of the risks to public health, we will be deeply grateful if WHO will provide us an aid.

Allow me once again to express my sincere respect and hope for your usual effective and constructive assistance.

Sincerely,

Minister

David Sergeenko
