

Dear Participants;

The "International Health Tourism Congress" started its activity in 2005, by improving the Health Tourism in our country as its vision, by conducting researches in the field of Health Tourism, making cooperation with institutions and organizations related to Health Tourism, developing health tourism in our country and contributing to tourism as its mission. The eighth of the "International Health Tourism Congress", organized every year by the "Health Tourism Association of Turkey" and held in the year 2015, will be held between May, 3-6 2018 in Kusadasi/Aydin.

In the scope of "8th International Health Tourism Congress" that we will organize, panels, conferences, face to face (B2B) interviews and similar activities will enrich the congress, also academicians, public and private organizations, non-governmental organizations, investors, sector representatives and business representatives will be invited as well as leading domestic and foreign invited speakers.

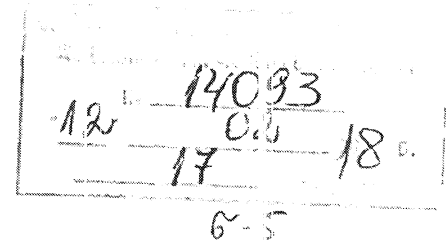

We feel great honor and happiness to see you among us to create new opportunities for entrepreneurs and investors in Health Tourism, to provide development, to make national and international publicity of all health and thermal enterprises in our country, to highlight our country in the order of health tourism destinations and to find solutions to our problems.

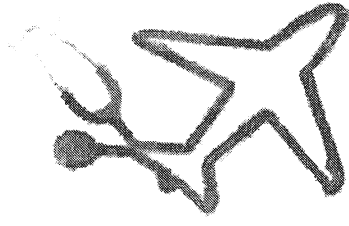

Best Regards,

Enginer BİRDAL

On behalf of the

Executive Committee
