

April 27, 2012

Enclosed: FY13 Strategic Implementation Plan Summary for All Staff

Colleagues,

Our FY13 is off to a great start. On April 24, 2012 our CEO Kathleen Flanagan held a town hall to provide an overview of the FY13 strategic implementation plan to all staff.

Our goal is to ensure that all Abt staff are familiar with the 5-year strategic plan and our FY13 implementation plan which outlines priorities and key strategies.

To help communicate the details of the plan, please find enclosed a "Strategy at a Glance" 1 page document to be distributed to all staff. This summary page can be hung up in offices, kept on desk tops or in folders. It is company confidential – so it is intended just for Abt staff usage.

In addition to the 1 page document, the recording of the strategy town hall as well as the detailed FY13 plan is available on AbtNet.

If you need help in getting these documents or further quantities of the 1 pager (other languages – it is available in English, Spanish, French and Portuguese) please let me know (victoria_child@abtassoc.com).

Regards,

Victoria Child
Senior Project and Communications Manager
Office of CEO
