March 15-16, 2021

### SPEAKER VIRTUAL PRESENTATIONS GUIDELINE

1

Identify each of these rolls:

**HOST**

WHO CONVOKES THE PRESENTATION

**SPEAKER**

WHO SHARES THE MESSAGE

**PARTICIPANT**

WHOM RECEIVES THE MESSAGE

2

**Before the presentation:**

- Re-check the timing of the recording.
- Check the speed of your Internet connection.

3

**Minimum 20 mb Download required for a good connection**  
**We recommend you verify your internet speed @:**

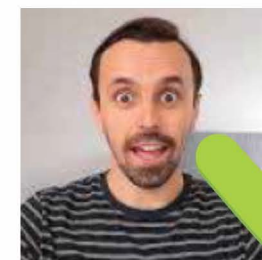

<http://www.speedtest.net.es>

4

**Light ,background, and framing:**

- Make sure light is directed to you.
- The background must be solid color, no mirrors or objects.
- Make sure you can see your shoulders in the shot.

5

**Multimedia:**

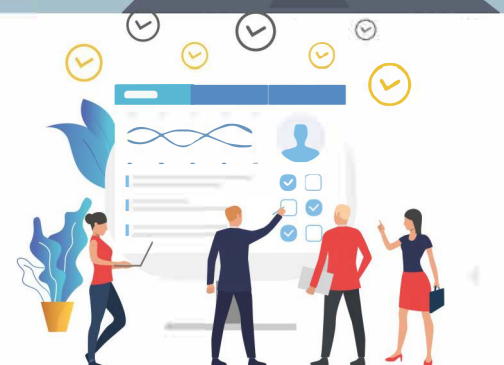

- Make sure to have your presentation ready to share.
- If you are going to share a video make sure the microphone is open.
- We recommend you to use a headset or headphones for better quality audio.

6

**Prepare your desktop:**

- Re Start your computer the night before.
- Disable app upgrades.
- Disable notifications.
- Disable Whatsapp web.
- Close all your apps.
- Learn how to mute and activate your mic.
- Familiarize with all the icons specially with the chat option.

7

**Look at the Camera!**

- You can use books or other objects so the camera is at the height of your eyes.
- Maintain eye contact by looking into the camera.

8

**Distractors:**

- Make sure nobody is walking around the room.
- Have a glass of water nearby, make sure you go to the restroom beforehand.
- Avoid looking at your phone.

9

**What to wear during the Conference:**

Wear the same clothing you would wear on a live presentation.

10

**During your presentation:**

- Try not to make exaggerated facial expressions.
- Watch your body language.
- Avoid yawning, stretching or standing up.
